(Reg. No: 1816)

Presentation of Partnership

Presentation of PB2[Faculty of information and communication technology – University St.
Kliment Ohridski Bitola]

Kick off Meeting, 05-06 June 2018

Host: LB1 - Aristotle University of Thessaloniki

Venue: Aristotle University Research Dissemination Center (KEDEA), Thessaloniki

Presenter: [Ass. Prof..Snezana Savoska]

Contents of the Presentation

- Brief introduction to your Organisation: Background, expertise, activities, etc. (3-4 slides)
- What are your interests and expectations in the Project (1-2 slides)
- What do you expect to be your role in the Project (1-2 slides)
- Brief presentation (6-8 slides) of your:
 - deliverables and milestones (whole duration of the project)
 - procurement plans (whole duration of the project)
 - current status and planned activities until end of M06
 - plans for ensuring effective coordination and management at beneficiary level (local project management and coordination)

Studying possibilities ...

Information science and communication engineering
(240 EU credits), 9 profiles of specialization

Information science and computational engineering

Software engineering

Computer graphics and video games programming

Information systems

Communication technologies

Machine intelligence and production systems engineering

Application of e-technologies

Computer forensic

ICT entrepreneurship, Innovations and small Business management

Profiles...

Bachelor of Information science and communication engineering

Skills

- ❖ System administrator
- ❖ System analyst
- ❖ Web designer / Web developer
- ❖ IT consultant
- ❖ Network administrator
- ❖ Information systems designer
- ❖ Software engineer
- ❖ IT enterpreneur

Scholarships, tuition fees, employment ...FIKT's partners

Erasmus and other EU motilities, summer schools, ...

Other activities...

Running internal projects,
bilateral projects with
China, Cross4all,
Emplyouth..

ERSICT

Journal of Emerging Research
and Soutions in ICT

Contents of the Presentation

- Brief introduction to your Organisation: Background, expertise, activities, etc. (3-4 slides)
- What are your interests and expectations in the Project (1-2 slides)
- What do you expect to be your role in the Project (1-2 slides)
- Brief presentation (6-8 slides) of your:
 - deliverables and milestones (whole duration of the project)
 - procurement plans (whole duration of the project)
 - current status and planned activities until end of M06
 - plans for ensuring effective coordination and management at beneficiary level (local project management and coordination)

Expectations

- Increasing the level of knowledge about e-health and digital e-health literacy as well as the WCAG 2.0 knowledge about disability standards
- Team work on heterogenic structures with different structures, different professions, cultures, and coupling for achieving common goal.
- Gaining expertise in e-health and digital e-health literacy
- Gaining new knowledge for usage of IT for helping elderly peoples, child, peoples with disabilities
- Equipping for creating and support of mobile applications on cloud and their integration with the others e-health services in different health systems
- Multilanguage support for applications and standards used in e-health
- Experience in EU projects in e-health

Contents of the Presentation

- Brief introduction to your Organisation: Background, expertise, activities, etc. (3-4 slides)
- What are your interests and expectations in the Project (1-2 slides)
- What do you expect to be your role in the Project (1-2 slides)
- Brief presentation (6-8 slides) of your:
 - deliverables and milestones (whole duration of the project)
 - procurement plans (whole duration of the project)
 - current status and planned activities until end of M06
 - plans for ensuring effective coordination and management at beneficiary level (local project management and coordination)

Role in the Project

- System analysis of the problems of e-health and digital e-health literacy
- Creating model and proposing solutions for different problems (in the project frame)
- Creating solutions for defined tasks (from the previous proposed model) in order to achieve the project aims
- Testing of created solutions
- Increasing e-health and digital e-health literacy in CB
- Managing PP2 project web site
- Creating strategy for e-health and digital literacy

Deliverables and mail stones

- Project web site (PP2)
- First draft of the Strategy and Action plan
- Development of e-Learning on health and digital literacy fully accessible WCAG 2.0
- Development of e-Prescription and e-Referral systems
- Development of mobile application on cloud for short-time tele-monitoring of remote citizens

Procurement plan

- D.1.2.2 (Management and coordination) – Month 1-6
- D.1.2.3 (Travel and accommodation) – Month 1-6
- **D.4.2.3.1 (Development od e-Learning digital e-heath literacy with WCAG 2.0) –M3 - part**
- **D.4.2.4.1 (Development of e-Prescription and e-Referral system) – M5 (part)**
- **D.5.2.2.1 (Development of mobile applications on cloud for short-time tele-monitoring) – M6 (part)**
- D.5.2.2.2 (Equipment for short-time tele monitoring) **Equipment (D.5.2.2 (WP5)) – M8 - 8.000 euros**
- **D.5.2.2.3 (Expert usability and accessibility evaluation..) – M10**

Planned activities for the first 6 months

- D.1.2.2 (Management and coordination) – Month 1-6
- D.1.2.3 (Travel and accommodation) – Month 1-6
- D.4.2.3.1 (Development of e-Learning digital e-health literacy with WCAG 2.0) – M3 - part
- D.4.2.4.1 (Development of e-Prescription and e-Referral system) – M5 (part)
- D.5.2.2.1 (Development of mobile applications on cloud for short-time tele-monitoring) – M6 (part)

Plan for ensuring effective coordination and management at beneficiary level (local project management and coordination)

O1.To foster health literacy and digital health literacy and promote self-management (**Web site for e-Learning on e-health and digital literacy**)

O2.To design innovative practices for improving access for vulnerable groups and for tackling health inequalities (**First draft of Strategy and Action plan**).

O3.To improve the capacity of health professionals and infrastructure to accommodate efficiently the needs of the target group (**Training of medical personal for usage of short time monitoring IT equipment with mobile application on cloud**).

O4.To establish new mechanisms focused on the conditions of poverty, services of comfort and counselling at home, including in rural and isolated areas (**Usage of new IT equipment for distance short time monitoring and accessible e-health services**).

O5.To mobilize inactive individuals and unblock their potential in offering care services to those most in need (**Training of medical staff for usage of set for short time tele monitoring with mobile application on cloud**).

O6.To promote joint strategies for developing integrated healthcare and social care sans frontiers (**Development o e-Procurement and e-Referral system without borders**).

Local project management and coordination

- Creating PP2 web site for Cross4all with managing strategy and usage of emerging IT technology
- Staff meetings for increasing the knowledge of the PP2 staff for the project
- Creating first draft of Strategy for e-health and Action plan
- Creating PP2 web site with e-Learning platform for e-health and digital literacy totally accessible (WCAG 2.0)
- Creating e-Prescription and e-Referral system
- Creating mobile applications on cloud for short time tele monitoring of remote citizens
- Results dissemination via PP2 project web site and
- Meeting in Skopje (closing project conference)

Thanks!
